## **Total Education Solutions Opens New Office in Daly City, CA**

-(Corporate Wire)- Daly City, CA, March 2, 2010—Total Education Solutions (TES), a leading provider of special education services, recently expanded its reach in California by opening its fourth office in the state. The new Daly City location enables the organization to better serve the Northern California region and fulfill all special education needs.

TES has grown rapidly over the years, launching multiple offices and clinics across three states. The company's recent expansion can be attributed to its dedication to children and its commitment to expand and enrich the quality and breadth of services available to children with special needs and their families.

All new office and clinic openings, as well as program growth, are founded on the desire to ensure that all children receive the special education services that will help them reach their highest potential. The company utilizes a multidisciplinary approach in their trainings, treatments, and service delivery wherein teams of experienced professionals from varying fields work together to create customized solutions and achieve goals.

This launch comes at an especially fortuitous time as TES will provide needed educational services to children thereby helping ease the burden created by the recent reduction in education spending, which is a result of California's budget deficit.

TES' new Daly City address is 700 Stewart Avenue, Daly City, CA 94015. The main phone number is (650) 756-3489 and the fax number is (650) 756-3754.
